6a - Ersten Kontakt - Übung

alle loggen sich auf dem Dozentsrechner ein;

passwd   Passwort wechseln

6b - Login Übung

Login Program is the parent of all programs started afterwards.
After successful check of name and password, Login starts a shell (bash)
See hiearchy with:

pstree -p | less

Ubung:

- login in terminal 1
- start mc
- go to terminal 2 and login
- look for the process tree under login 1
- kill login 1
- look for the process tree under login 1
- result: mc is gone
- go to terminal 1
- result: login waits for name
