

## 15 - 6 Virtuelle Konsolen

**<Alt>F1 bis <Alt>F6**

nach startx, X Kanal **<Alt>F7**

Unter X **<Strg><Alt>F1 bis <Strg><Alt>F6**

---

### Terminal/Consoles commands

**reset** Resets the current terminal. Good to recover the normal operation if junk characters appear when typing.

**tset** Tool to manipulate the terminal

**tput init** Initialize the current terminal

**tput reset** Resets the current terminal

**tput cup v h** Position cursor at Vertical *v* and horizontal *h*

**tty** Shows the current terminal name eg. *tty1* or *pts/3*

**showconsole** Same as *tty* command

**echo "text" > /dev/ttyX**

**echo "text" > /dev/pts/X**

Sends the text to the Virtual(*tty*)  
or to external(*pts/*) terminal device *x*.
